FRESH FOOD TRAYS

Food grade EPS
(Expanded polystyrene)

Technologies:
Liquid Absorption

High Impact Resistance

High Temperature Resistance

Colours
(Extra colours upon request)

Two-colour **Branding Potential**

100% Recyclable

EPS trays and containers offer unique advantages that enhance **both products and the environment:**

- Require less energy for production
- Reduce transportation costs because of lightweight properties
- Minimize food waste by preserving contents for longer

FOOD DELIVERY CONTAINERS **PRESERVE** FOOD TASTE, TEMPERATURE & LOOKS

Preserve the quality of cooked meals and indulge your customers' full senses by packaging your goods in **well-designed and operational friendly** EPS solutions.

VENTI CONTAINERS

With a special ventilating channel on the side, Thrace Group Venti Containers **remove moisture while keeping food warmer for longer.**

LEAK-FREE CONTAINERS

All served well: delicious tastes remain intact in well-designed mirrored compartments that **secure food separation during transport.**

FRESH FOOD TRAYS **CLAIM** THE IDEAL PACKAGING FOR FRESHNESS

Fresh for longer, hygienic & transport safe, best presented on the shelves, **retaining nutritional values and taste:** your products perform so much better in Thrace Group EPS packaging.

ABSORBENT TRAYS FOR FISH, MEAT AND POULTRY PRODUCTS

The equally dispersed micro-perforated holes **foster high absorbance** and **minimize the risk of juice leakages.** **High thermal insulation** capacity and **humid resistance** ensure that your products remain fresh and safe for consumption.

EPS TRAYS FOR FRUIT AND VEGETABLES

Thrace Group trays **guarantee food safety, prolong shelf life and enhance product presentation.** Shapes and dimensions are specially designed to contain the standard quantities preferred by consumers.

FIND THE RIGHT EPS PACKAGING FOR YOUR PRODUCT

Thrace Group's large range of volumes, shapes and dimensions are more than likely to match your filling line requirements. If not, we can provide you with custom-made solutions **that exactly fit your needs.**

All Thrace Group products are ISO controlled, manufactured in HACCP & BRC certified plants.
