- Floor protection

A COMPLETE FAMILY OF PRODUCTS IN MINI ROLLS FOR SMALL SCALE PROJECTS

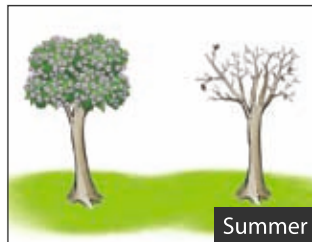

QUALITY MATERIALS FOR PRACTICAL DIY SOLUTIONS

Thrace Group high quality fabrics and nets are also offered in the form of mini rolls to meet the needs of the end consumer in gardening and construction Do-It-Yourself projects.

Weed control fabrics prevent the growth of weeds, eliminating the need for herbicidal or insecticidal sprays in vegetables and plants, liners of pots, driveways and patios.

Crop cover fabrics protect plants and trees from unfavourable weather conditions.

Shading nets protect against excessive exposure to sunlight and can also be used for screening and light windbreaking applications.

Fencing nets are ideal for multiple garden applications, protecting plants from birds, wind and hail while offering light shading.

Separation fabrics separate soil from sand or gravel, allowing drainage and filtration in driveways, patios and drain filters.

Crop cover fabrics

Reinforcement fabrics are ideal for constructing retaining walls and stabilising earth slopes.

Floor protection fabric is a reusable protective fabric coated with anti-slip film, for redecoration projects without spills or marks on floors.

Weed control fabrics
